

Who We Are

Children International, a nonprofit humanitarian organization founded in 1936, works to help impoverished children around the world overcome the hurdles of poverty by helping them become healthy, educated and productive members of society.

Through the leadership of President and Chief Executive Officer, James R. Cook, our primary focus is on improving the health and education of poor children by providing them with the tools they need to lead happy and healthy lives.

Our Mission:

Children International's mission is to help children living in dire poverty. We accomplish this through the generosity of our contributors who help provide sponsored children with benefits and services they need to improve their living conditions and impact their futures through better education.

Our Vision:

Our vision is that each child will grow into a healthy, educate and self-reliant adult.
