Dave Hertz '89 joins Florida rock band

Dave Hertz '89 is the new drummer for Tampa, Florida's hottest rock band Fall 2 Earth. This band's style of heavy rock unearths a pop/grunge/alternative flair that's definitely unlike most bands you'll find in Florida. Reminiscent of Rush, Queensryche, Evanescence and the Red Hot Chili Peppers yet remarkably different, Fall 2 Earth pair thought-provoking lyrics with a tapestry of inspired arrangements which combine the eclectic musical backgrounds of each member.

The band has booked numerous gigs and performs at a variety of bars and clubs playing either full cover sets or full original sets of music - or often a combination of both. In May 2007, Fall 2 Earth were signed by Boston-based Illumina Records to be a part of the Ground Control project by performing their single Falling Star for the Miami Rockers For Life compilation CD. Fall 2 Earth are proud to be affiliated with Illumina Records by helping to raise awareness of the dangers of drunk driving.

Fall 2 Earth are currently in the studio to finish recording This Game and several tracks from this CD have already piqued the interest of an executive affiliated with one of the "Big 4" record labels. For more information check out their website: <http://fall2earth.net/>
